CAMRO TRIPLY COOKER

FAST, SAFE & EFFICIENT COOKING

Extra-Thick

All Camro cookware is made in TRI-PLY - an inner food contact layer of 18/10 surgical steel (Ss304), a middle fast heat conducting core and an outer of durable magnetic stainless steel (Ss304). The Ss304 layer is the safest for cooking food, while the middle layer ensures even heat distribution and cooking, and the Ss304 layer can be used on a number of heat sources such as gas, induction, electric and halogen, Besides this. Camro TRI-PLY has a lot of advantages making your daily cooking experience safe and enjoyable.

The most significant advantages of

Hammered Steel Utensils is their exceptional durability.

1. Durability

Hammered steel doesn't chip, crack, or break easily, ensuring that your investment lasts for generations.

2. Aesthetic Appeal

Hammered Steel Utensils are not only Functional but also stunning to look at.

3. Easy to Maintain

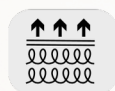

Maintaining Hammered Steel Utensils is relatively easy.

4. Non-Reactive

Leach Proof, 0% Aluminium Contact.

5. Longevity

Investing in high-quality hammered steel utensils can be a one-time purchase that lasts for generations, with proper care & maintenance.

Triply Honey Comb Roti Tawa

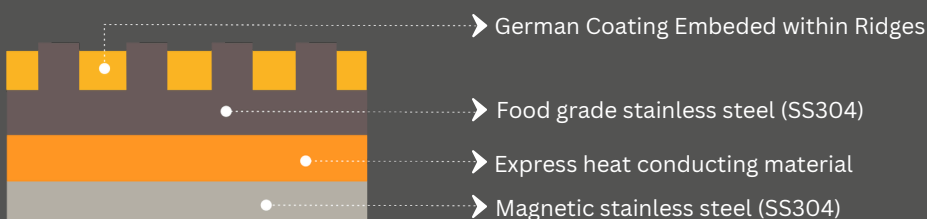

Triply Strength, Honey Comb Advantage For Every Kitchen!

All The Benefits Of Tri-ply +Hexa Ridge Technology

Our latest and most hi-tech series. At Camro, we get continuous feedback that people want non-stick cookware, however they are worried about the health aspects and durability of the coating. In response, we have been able to form a system which merges the best of our Artisan Series (made of Triply) and the best coating in the world.

Due to the construction of the cookware, the special coating is not allowed to chip, taking care of both the health aspect and durability of the cookware. You can even use a metal spoon on it. While this is not absolute non-stick, it will require about 80% less oil than the standard Artisan Series (which already uses very little oil).

HYBRID CONSTRUCTION

- Non-Stick Friendly
Reduced oil usage
- Honeycomb Technology
Even heat distribution
- Scratch Resistant
Long-lasting durability
- Superior Heat Retention
Keeps food warm longer
- Induction & Gas Compatible
Works on all cooktops

✓
Ideal for All Types of Cooking
Suitable for frying, boiling, and slow cooking without health risks.

Uses of Stainless Steel Cookers

1. Pressure Cooking

Ideal for faster, nutrient-rich cooking (dal, rice, vegetables, meat).

Food Safe &
Non-Toxic

2. Boiling & Simmering

Great for soups, pasta, and stews without metal leaching.

Multi-Cooktop
Compatible

3. Baking & Roasting

Stainless steel pans are oven-safe for versatile cooking.

Preserves Nutrients
& Taste

4. Serving & Storing

Elegant enough for direct serving and safe for food storage.

Rust & Corrosion
Resistant

5. Deep Frying

Safe for high-heat cooking without releasing toxins.

Easy to Clean

Stainless Steel Cookware Collection...

What is Encapsulated Bottom Cookware?

Encapsulated bottom cookware features a stainless steel outer layer with an aluminum or copper core sandwiched inside the base. This design ensures even heat distribution, faster cooking, and energy efficiency while preventing hot spots. It is durable, non-reactive, and compatible with multiple cooktops, including gas, induction, and electric stoves.
